Daily Market Report

WALL STREET.

NEW YORK, April 10.—Yesterday's unexpected advance of call loans to ten per cent, causing misgivings respecting next week's money market, were primary factors in today's brief and reactionary session of the stock exchange. Exceptions to the general decline included shipments and sugars, which responded to favorable trade conditions at gains of 2 to 6 points. Metals and several of the equipments were firm to strong, but representative steels, motors and oils were under pressure with numerous specialties, and rails were dull and slightly lower. Moderate rallies, due to short covering, occurred in the final dealings. The closing was irregular. Sales approximated 450,000 shares.

CHICAGO GRAIN

CHICAGO, April 10.—Anxiety over the railway strike situation led to new upturns today in the price of corn. All deliveries except May went above previous top figures for the season. Covering by shorts was on a big scale. Opening prices, which varied from the same as yesterday's finish to 1/2c higher, with May \$1.57 to 1.58 1/2, and July \$1.60, to 1.60 1/2, were followed by material gains all-around. Oats like corn reached new high record prices for the season. There was no pressure to sell. After opening a shade off to 1/2c up, including July at \$5.55 to \$5.60, the market scored a general advance. Provisions were firmer in sympathy with grain. Trading, though, lacked volume.
